ADDITIONAL INFORMATION

Presentations

In December 2014, I supported the Culture of Acacia at BioForum Moldova Eco-Energy event in Chisinau, Moldova.

Then came the event ARBIO Biomasa and Biogas FORUM, Bucharest 2015, where we presented the Energy Acacia Culture.

In a private setting here in Romania, I had the opportunity to pursue an almost acacia energetic culture set up in Lugoj within a five-year period, between 2012-2017, where the acacia was cultivated in agro-forestry.

In 2017, I was honored to hold a lecture on the Culture of the Energy Squadron, in the Romanian Senate, the European Affairs Commission.
