

## THE HYDROGRAPHICAL BASIN CRISURI MANAGEMENT PLAN

Tentis M, D. Dume \*

\*Crisuri River Basin Directorate

### **Abstract**

*River Basin Management Plan is most important tool for the implementaion of the Water Framework Directive 2000/60/UE. The Plan for Crisuri hydrographic river basin, wich goal to reach the "good status" for waters unti 2015, fact wich will realise (bring) the same conditions of life from the water point of view for all citizens, has to fit into the Romanian National Management Plan, wich fit into Danube District Management Plan (PMDHD).*

*The 2004 Report of the hydrographic river basin Management Plan accomplish the obligations of reporting to the European Comission according to Water Framework Directive Article 5, Annex II and Annex III, concerning the first assesement and characterisation and consultation provided.*

*The main goal of this analyse is to asses the status of surface groundwaters and to identify the water bodies "at risk", wich are not going to reach environmental objectives. As follow up, using the results of the assesement from 2004 Report, the monitoring network will be elaborated for the reaching the "good status" of waters in 2015.*

*The data and informations for the elaboration of the 2004 Report are in general data from 2002 and sometime from 2003, excepting the chapter for the economic analyse, for wich the data used are from 2000 to 2003.*

*This data were provided mainly by Water Directorates, water users. County Directorate of Agriculture and ROMSILVA Branches from the counties in the basins, local and county authorities for the Protection of the Environment, Administrations of the Developing Regions, National Institute of Statistics etc.*

*The Report was elaborated by the specialists from the office "Master Plans for the Improvement and Management of the Bassin" Office from Crisuri Water Directorate, with the participation of the experts from the River Basins Management Plan Department from National Administration "Romanian Water", as well as experts from research institutes.*

**Key-words:** *hydrographical basin Crișuri, management plan.*
